

# Support for mental health carers in Wales

If you are the carer of a person with a mental illness this leaflet will provide you with the information you need to find out where you can get support and advice.

Hafal is Wales' principal charity run by people with severe mental illness and their carers. Hafal provides a variety of services for carers of people with a mental illness across Wales. All Hafal's services stem from our unique **Recovery Programme** which empowers clients to make a step-by-step recovery plan, to look at all aspects of their life and set goals, and to take control of their lives. Carers are of course key supporters of the people they care for as they work towards recovery.

Hafal provides a range of services and support specifically for carers. These include:

- **family support:** working closely with carers and family members to provide the best support for clients
- **advocacy:** supporting carers by representing their interests
- **breaks for carers:** engaging a person being cared for in an activity so that carers can take a break
- **accessible information and advice:** providing carers with the latest news and information relevant to them
- **mutual support:** enabling carers to support each other through **carers' groups**
- **giving carers a voice:** especially in the planning of local services
- **awareness raising:** highlighting carers' rights, such as the right to have a needs assessment under the Care Programme Approach.

Hafal also campaigns vigorously on behalf of carers: for instance, thanks to the campaigning of organisations such as Hafal, the recent draft Mental Health Bill was abandoned, including proposals to replace the 'Nearest Relative' role with a problematic 'Nominated Person' role with fewer rights for carers.

## All-Wales Mental Health Carers Forum

In 2004 Hafal set up the groundbreaking **All-Wales Mental Health Carers Forum** especially to address the needs of the carers of people with mental illness. The Forum now provides a much needed voice for carers on a national level, focusing on concerns such as:

- **the provision of respite services**
- **raising the profile of mental health carers**
- **the commissioning of mental health services**
- **the Carers' Strategy and its grant scheme.**

The Forum is also open to individuals and groups not affiliated to Hafal. For more information about the activities of the Forum, or to become involved, contact the All-Wales Mental Health Carers Forum Convener **Janet Randles** c/o: Hafal, Suite C2, William Knox House, Llandarcy, Neath SA10 6EL (Tel:01792 816 600; Email: carersforum@hafal.org).

For more information on carers' services in your area, see details of local services overleaf.
